Go beyond the Eiffel Tower and experience Paris with Babylon Tours.Duration: 2 hours and 30 minutes Explore some of the best natural history museums, art museums and factory tours. Pack up your family and enjoy boston children's museum, Cooperstown, Ben and Jerry's Factory Tour. It has been some time since news of Egypt's much-anticipated antiquities museum was first published: the Great Egyptian Museum (GEM), which will be the largest archaeological museum in the world. The opening date has been pushed back on a number of occasions, but the museum now says it will open in the last quarter of the year, with 94.5 percent of the works currently completed. (Last fall, they museum briefly opened for a \$250 hard hat tour, but when it became so popular that it stalled construction, the program was withdrawn.) If you have visited Cairo's existing Egyptian Museum in Tahrir Square, this opening will set a definite jump from the 19th to the 21st century. Where the old museum was a treasure warehouse, there is a new billion-dollar, glass and concrete space that guides guests through a journey similar to Howard Carter's when he discovered by king's tomb a century ago. New location – outside central Cairo, on Giza on the edge of the western desert – it overlooks the famous pyramids and adds even more atmosphere. GEM was first announced in 1992. The site was chosen to get around issues of moving visitors through central Cairo's notorious traffic, but Irish architects Hengenh Peng also addressed visitor overcrowding, poor acoustics and, crucially, threats to conservation. There will be more than enough space, as Eltayeb Abbas, head of the museum's new archaeology, said, to welcome the world and show them the best of our ancient civilization. The ambition is huge: officials hope gem will immediately attract 5 million visitors a year (about the same as Tate Modern, the UK's most visited attraction) and surpass 7 million annual visitors to New York's Metropolitan Museum of Art shortly afterwards. The ticket price will be on a par with the Met and the Louvre, about \$20. What egypt's Great Museum GEM will look like is built on a slope and paddles a 162-foot difference in levels between the Nile Valley, where you enter, and the Giza Plateau, where the main galleries are located. There are sculpture gardens in the museum park, while a massive statue of Ramses II greets you upon entering the main atrium. From here, the Grand Staircase, which leads from valley level to the plateau, will be lined with 87 statues of kings and gods. The main galleries lead to the left of the staircase and are divided into four eras: pre-dynastic (up to 3100 B.C) and old kingdom (pyramid builders), Middle Kingdom, New Kingdom (Tutankhamun, Ramses and Co) and Greek-Roman. These chronological galleries are then organized according to themes, unlike the old museum: Creeds and Eternity (Religion), Kings and Power (Rulers) and Society (the rest of us). Finally, visitors are led straight back to the tall glass windows, which look towards the pyramids and drive home the magnificence of ancient Egypt - the grand finale of a chronological show celebrating one of the world's great civilizations. To the right of the staircase are the Tutankhamun Galleries where, for the first time, the contents of the tomb will be displayed in its entirety. Within the museum there is also a separate children's museum that will use the most recent visual tricks to explain the ancient world of Egypt to children. A particularly cool note about the Tut Galleries: the relics are shown in exactly the order in which Carter came across them in the tomb. The spread of COVID-19 has stopped many things in our lives, especially our ability to travel, which is why many have cancelled the holidays they have planned. But while we may be stuck inside, that doesn't mean we can't have any new experiences in the meantime. So we've compiled the ultimate list of 75 world-class museums offering virtual tours to visit from the comfort of your sofa! Many of the Tours include exhibition walks and the ability to view some of the world's best paintings, sculptures and other pieces up close and personal. These virtual tours are packed with details to make you feel like you're actually visiting a museum. Experiences will surely entertain the whole family, art lovers or history lovers, or even those of us who want to re-imagine the joys of travel! We have our list in 4 simple sections, including art, natural history, science and technology, and history museums. So whether you prefer painting at the Van Gogh Museum, check out the SR-71 Blackbird at the Flight Museum or check out Rosetta Stone, this list has it all!
